

Cotemar is recognized for its 10 years of corporate social responsibility with the SRC Award

March 2, 2022.

Mexico City, Mexico.- **Cotemar** has reaffirmed its social commitment once again as it receives **the Socially Responsible Company (SRC) Award** for the 10th consecutive year. This award highlights the Company's efforts to advance the use of good practices and its compliance with the established standards that are involved in each of its projects, all of which have a positive impact on the development of the communities where it operates.

The Mexican Center for Philanthropy (CEMEFI, Spanish acronym) and the Latin American Alliance for Social Responsibility (AliaRSE, Spanish acronym) grant this award through a diagnosis process based on indicators that are aligned with international initiatives regarding social responsibility issues.

This time, and for the 10th consecutive year, **Cotemar** receives this award for its strategy in four main action areas: **Business ethics**, commitment to **Quality of Life, Communities**, and the **Environment**. It is important to point out that part of **Cotemar's** business culture involves implementing policies, strategies, and programs that foster the development and continuous improvement of socially responsible management.

"Receiving the SRC award for 10 consecutive years drives us to continue working to help the environment and the members of the communities where we operate, but it also reaffirms our commitment to providing programs that have high social and community impact," said an internal Cotemar source.

For 43 years, **Cotemar** works in strict compliance with its values and ethical precepts, promoting the development of the energy sector in Mexico.
