

For the seventh year in a row, Cotemar receives the Achilles Certification

December 19, 2022

Mexico City, Mexico. **Cotemar** announced today that for the seventh consecutive year, it has been awarded the **Achilles Certification**, a prequalification system that all Petróleos Mexicanos (PEMEX, Spanish acronym) suppliers are required to obtain, as this allows PEMEX to manage its supply chain risks and ensure that all suppliers comply with the legal requirements and the human and environmental standards established by the state-owned enterprise.

“Every year, to obtain the **Achilles Certification**, we undergo an exhaustive audit that assesses several aspects of our operation. We are very pleased because, for the seventh year in a row, we have obtained outstanding results and complied with all the requirements to obtain the certification,” said an internal **Cotemar** source.

The five categories assessed during the **Achilles Certification** review process include:

- Quality and Business Management
- Corporate Social Responsibility
- Human Resources
- Health and Safety
- Environment

This certification will allow **Cotemar** to be identified as a relevant supplier for Pemex that follows the standards of the *Supplier Information Management Community of the South American Oil and Gas Industry* (Siclar) in the assessed categories.

As a supplier for PEMEX for more than 43 years, **Cotemar** performs under the highest quality standards at a national and international level.
