

Cotemar and Lifting de México perform Corporate Social Responsibility (CSR) activities in the municipality of Moloacán, Veracruz

December 1, 2022

Mexico City, Mexico. To improve the quality of life of the people who live in the communities where we operate and surrounding areas, **Grupo Cotemar** has implemented a solid **Corporate Social Responsibility (CSR)** program to promote a business culture that is based on its core values: Integrity, Effectiveness, Innovation, Collaboration, and Accountability.

As a result, **Cotemar** delivered an ambulance on bailment to the municipality of Moloacán, Veracruz to cover the needs of the residents of the community and the municipalities nearby. Cotemar also made an in-kind donation of medication to the National System for Integral Family Development (DIF, Spanish acronym) of Moloacán as part of a program with local authorities to provide support to the DIF.

“**Cotemar** and **Lifting de México** are committed to the community and, as such, we have launched initiatives that will provide these residents with easy access to a better quality of life. We would not be able to say that we follow the company’s ethics if we do not provide benefits for the entire community,” said an internal Cotemar source.

Cotemar is a sustainable company that is permanently committed to the well-being of its people and their families, the development of the communities in which we operate, and caring for the environment. Furthermore, **Cotemar’s** comprehensive corporate governance drives good organizational practices.
