

## Information Card.

April 6, 2024.

Ciudad del Carmen, Campeche.- Regarding the events that occurred today on one of the Akal-B Process Center (Akal-B1) platforms, property of Petróleos Mexicanos, located in the Campeche Sound, Cotemar reports the following:

After the immediate implementation of our Emergency Response Plan, Cotemar employees who were in a residential section close to the platform, were evacuated as a precaution. Likewise, medical and psychological evaluations have been carried out and communication has been established with their families, ensuring their well-being and tranquility.

Those of us who are part of Grupo Cotemar express our solidarity and support to our colleagues from Petróleos Mexicanos and the companies Coter and Diavaz, who were also on the platform.
