

Cotemar receives the Environmental Quality certificate from PROFEPA

April 24th of 2024.

Mexico City, Mexico.- A few weeks ago, Grupo Cotemar received the Level 2 Environmental Quality Certificate for the km 10.5 facilities, granted by the Federal Environmental Protection Agency (PROFEPA) as part of the National Environmental Audit Program, highlighting the company's continuous commitment to the exemplary environmental practices in its storage facilities and supply infrastructure. It is the first company in the state of Campeche to receive a certificate at this level.

The National Environmental Audit Program (PNAA) is aimed at companies in operation that, due to their location, dimensions and characteristics, and scope, may cause negative effects or impacts on the environment or exceed the limits established in the applicable provisions regarding protection, prevention, and environmental restoration.

At Cotemar, our environmental focus translates into effective actions that generate real improvements, with rigorous documentation that guarantees transparency and participation. Therefore, we apply a preventive strategy in all processes to minimize risks and impacts, and we are committed to reporting specific indicators that reflect our environmental performance.

The Environmental Quality Certificate represents an opportunity to take environmental burdens and voluntarily direct them towards environmental self-regulation-Environmental Management System; continuous improvement; inclusion of the environment in the axis of business activity and, in general, greater certainty for those involved. This achievement underscores our commitment to sustainability and environmental responsibility in our operations.

In addition to being the first company in Campeche to receive level 2 certification, it is noteworthy that it is a Mexican company in the energy sector, providing services for offshore oil exploration and production, as well as dedicated to maintenance, operation and platform rehabilitation, so the badge not only recognizes our current practices but also motivates us to continue leading by example in the industry, ensuring that the environment remains at the heart of our business.

For 45 years, Cotemar has maintained a commitment to safety and care of the environment, with continuous actions to protect the environment, for its own benefit, the community, and our country.

###

About Cotemar, S.A. de C.V.

EXPERIENCE, EFFICIENCY, PASSION AND SOCIAL EMPATHY DEFINE US

We are a 100% Mexican company founded in 1979 that provides comprehensive solutions for offshore exploration and production (E&P), from operational support to offshore design and construction projects.

Our experience and infrastructure, unique in the Gulf of Mexico, positions us as the best option, collaborating with our clients and helping them overcome their challenges, maximizing the return on investment.

Driven by our culture of collaboration and turning challenges into great opportunities. We execute projects safely, efficiently and on time, our more than 43 years of experience support us. One stop to get it done and done right.
