

Cotemar joins the fight against Breast Cancer

November 5th of 2024.

Mexico City, Mexico. - As part of the Pink Month and the commemoration of the International Day of the Fight against Breast Cancer, Cotemar reaffirms its commitment to the health and well-being of its employees and the community, organizing a series of activities aimed at raising awareness and educating about the importance of prevention and early detection of this disease.

As in previous years, during the free mammogram campaign, Cotemar conducted 210 mammograms for its collaborators, their families, and the community of Ciudad del Carmen, Campeche. This initiative seeks to facilitate access to early detection tests, essential to fight breast cancer.

Likewise, Cotemar held the webinar “I join the fight. Together against Breast Cancer,” where specialists shared crucial information on the prevention, detection and treatment of breast cancer. Attendees had the opportunity to interact with the experts and receive answers to their questions.

In addition, at the “Rally Balance,” through physical and recreational activities, both on land and on board, Cotemar employees learned about key protective factors against breast cancer, such as healthy eating and laughter therapy.

In Mexico, according to data from the National Institute of Statistics and Geography (INEGI), 21,330 new cases of breast cancer were recorded in 2023. The incidence rate is approximately 27.5 cases per 100,000 women.

For more than 45 years, Cotemar has prioritized the health of its employees and their families, promoting essential preventive actions in the fight against breast cancer.
